

"Critical Issues of Methamphetamines"

This self-paced course will provide participants with information about methamphetamine and the related child endangerment issues. General information including signs someone is using meth, meth lab indicators, effects on children living in a meth environment, and safety for workers and home visitors will be covered. This course is a self-paced course with no instructor. Students work on the course at their own pace. Course length is approximately 2 hours.

COSTS: **All Professionals:** \$10.00 per course

CEUs: Receive 1.5 hours of in-service training. A certificate will be mailed to you after completion of the course.

DETAILS:

The e-learning course can be accessed 24/7 for your convenience. The courses do not have scheduled times for participants to be online.

To participate in a course, participants need to have access to the Internet, and an email address (free email accounts may be set up with yahoo.com or hotmail.com).
